

Practical Assignment
Computer Science Deptt.
[B.Sc.2rd Year2019-20]

S.No.	Program Title	Date
1.	Write a program to insert a number at third position of an array.	16/08/2019
2.	Write a program to insert a number at the beginning of an array	24/08/2019
3	Write a program to calculate the arithmetic mean of n number.	14/09/2019
4	Write a program to delete a number of an array.	21/09/2019
5	Write a program in C language to print array in a matrix.	17/10/2019
6	Write a program for Nesting of function in C language.	09/11/2019
7	Write a program to calculate the median of any given n odd element.	16/11/2019
8	Write a program to calculate the factorial value of any given number using recursion.	22/11/2019
9	Write a program for addition of two matrix in C language.	29/11/2019
10.	Write a program to generate Fibonacci series through recursion.	30/11/2019
11.	Write a program to calculate the mode of given any five number.	07/12/2019
12	Write a program to check the number is prime or not by using recursion.	13/12/2019
13	Write a program to check whether the given number is a palindromic number using recursion.	14/12/2019
14	Write a program to calculate the value of standard deviation of given number.	20/12/2019
15	Write a program to sort a given set of 10 numbers into ascending order.	28/12/2019
16	Write a program to sort a given array using insertion sort algorithm.	04/01/2020
17	Write a program to calculate the value of coefficient of variance of any five numbers.	10/01/2020
18	Write a program to merge two arrays and sort the elements of it.	17/01/2020
19.	Write a program to search an element in a given array using binary search tree.	24/01/2020
